WHAT IS THE ADVANCED MONITORING WATCH?

The ADVANCED MONITORING WATCH is a 3G enabled smartwatch and an emergency response device. What this means, is that the wearer of the watch is able to send an emergency alert to a nominated carer if they become distressed or vulnerable. By activating the alert, a voice call is made to the nominated carer with additional information being sent over SMS/Email or our Friends and Family app to any additional carers as well. The carer can then respond and ensure the watch wearer gets the help required.

Whether the watch wearer is out exercising, working remotely on their own or just doing day-to-day activities, at the press of a button, they are instantly connected in real-time to their nominated carer(s), meaning that help is always near. With accurate location software, finding the location of the watch in an emergency provides extra peace of mind.

The ADVANCED MONITORING WATCH has:

- Single press help button to send an alert to your carers
- Notifications if it goes out of coverage or is running low on battery
- 18+ hours of battery life
- Wireless charging
- IP68 certified – dust and water proof (up to 1.5m for 30 mins)
- Two-way voice calling (unlimited inbound and 10 minutes/month outbound)
- GPS and Network location
- Fully standalone – no need for a paired mobile

With the ADVANCED MONITORING WATCH, your friends and family are just a button push away.

WHAT IS THE FRIENDS AND FAMILY APP?

Friends and Family is a free app provided by EEVI to compliment the ADVANCED MONITORING WATCH. The app allows carers to have peace of mind by passing on any out of the norm events that occur in regard to the wearer.

SPECIAL OFFER WHILE STOCKS LAST[^]
PROMOTIONAL CODE: EEV002
ADVANCED MONITORING WATCH

The main features of the app include:

- Periodic location reports with the ability to request updates in real time
- Notifications in the event of an Alert button being pushed
- Notifications about the status of the device (battery level, connectivity, etc)
- More features to come soon.

The Friends and Family App is currently only available on Android devices. An iOS App will be out very soon.

THINGS TO NOTE

[^] This is a limited offer to our stock of Samsung S3 watches. If stocks are sold out, the offer expires. We do not guarantee that any individual order can be supplied. An order must be on the Application for Advanced Monitoring and must include the Promotional Code EEV002 inserted in the space provided for the special offer price to apply.

* Advanced Monitoring relies on Mobile Network Connection only. The mobile connection is the primary connection with no back up.

Please read the Critical Information Statement for full details of the Advanced Monitoring Service.
