Our service offers a combination of Broadband with included data. Details are set out in the above table.

Where are these plan available?

- Home Broadband and Home Broadband Unlimited are available at a growing number of Aveo communities across Australia. Visit our website at www.AveoConnect.com.au for an up to date list.
- You can check if your address is serviceable On the AveoConnect network or Off over the NBN from our website at www.AveoConnect.com.au

What is the minimum contract period?

Minimum Contract Period	12 months
Cancel Fee	If you cancel early, you pay a cancel fee equal to the total monthly recurring charges for the remaining term of the Minimum Contract Period. If you are leaving the Village, you can cancel and no cancel fee applies. If your estate cancels, it can do so and no cancel fees apply.

What are the different speed tiers and Unlimited data?

- Broadband uses a combination of the latest technologies for high speed internet. The choice of technology and of network service provider is at our discretion.
- Basic Evening Speed - this is the entry level plan for basic internet needs with a 12/1 Mbps maximum theoretical off peak download and upload speeds respectively.
- Standard Evening Speed - plans using this label will deliver a minimum speed of 15Mbps during the busy period. This plan would support a typical usage profile of residential customers

(e.g. streaming one high definition movie at the same time as web browsing on another device during the busy period)

- Standard Plus Evening Speed - plans using this label will deliver a minimum speed of 30Mbps during the busy period. This plan would be suitable for a higher usage profile (e.g. streaming an ultra-high definition movie and streaming music on one or more other device during the busy period)
- Premium Evening Speed - plans using this label will deliver a minimum speed of 60Mbps during the busy period. This plan would be suitable for a higher usage profile than Standard Plus (e.g. streaming an ultra-high definition movie at the same time as gaming on other devices during the busy period).
- We cannot promise actual speeds, because things happen in networks (they get congested like roads, and poor cabling can act like speed bumps), but our techies will give you the fastest speed we can.
- We can't confirm your maximum line speed until your service is installed and activated. If your connection doesn't allow you to properly benefit from the speed tier you're on, we'll provide you with your maximum line speed, once it's available, along with alternative options.
- "Unlimited" means you can download as much as you like at no extra charge. Upload too, for that matter. Go for it.

Inclusions

- Connecting your residence to the network is included.
- A WiFi Home Gateway is included, and we set it up.

INFORMATION ABOUT THE PRICE

What are the Charges?

- Your monthly charges, set up charges and minimum cost over 12 months for each service are set out in the table plan above.
- If you are in a new development that is serviced by the National Broadband Network ("NBN"), NBNCo may charge

CRITICAL INFORMATION SUMMARY

HOME BROADBAND

\$300 to connect your premises to the NBN. If so, we will charge that to you.

- If you are in an area serviced by the National Broadband Network (“NBN”) using Fibre to the Node (FTTN) or Fibre to the Curb (FTTC) technology a \$300 Subsequent Installation Charge plus labour and materials may apply if;
 - a new copper pair needs to be installed by NBNCo; or
 - a jumper cable needs to be installed by NBNCo and: the premises does not have an existing voiceband/non-voiceband service; or the premises does have an existing voiceband/non-voiceband service but you choose not to transition it.
- If you require a complex installation beyond our standard installation, or additional cabling or phone/data outlets, we may charge you for that work.

What is NOT included in the Monthly Charge

- Excess data over and above the included data is not included. If you exceed the data use included, we will slow your connection speeds until you either contact us and upgrade to a higher data use plan, or the end of your then current billing cycle.
- Use which we regard as unacceptable (in accordance with our Acceptable Use Policy) is not included.

To help understand, here are some standard things that cost money with other carriers

What does it cost to use 1Mbps of data (about the size of small video file)?	\$0, it is included in the data in your Bundle.
